

Dear Bautista Family,

I would like to thank you for this opportunity; it means a lot to me and my family. Thanks to this scholarship, my family and I do not have to panic about how and when we will pay my tuition. This is my second year getting considered for this scholarship and I'm really proud of myself. I am glad that I am able to keep up my good work. The first time I got the scholarship, my family was experiencing financial problems because of an accident that my brother had. Thanks to God, my brother is so much better now than before, still not able to work because of his arm but he's able to move it more. Thank you so much for considering me for this scholarship, me and my family truly appreciate it and we're so glad that people with humble hearts still exist.

I am a junior at Cristo Rey Jesuit High School, a school that feels like home and brings me and the students at the school support in many ways. I have been working since my first year at Corboy & Demetrio, a law firm located in downtown Chicago, IL and this is now my third year working there. In my first year, I mostly worked on physical things like shredding paper, organizing files, printing, and scanning papers, and more. At the end I worked with stuff online with a web called ProLaw. My second year working at Corboy & Demetrio was different because I was working completely online on the same website. For my third year so far I've been focusing on filing and transferring cases to the program ProLaw. I'm learning valuable job skills that will help me in the future.

I appreciate this wonderful opportunity; I hope this scholarship keeps on helping students and supporting Pilsen kids. I will keep up my excellent work and not only academically but at work and with my family.

Wishing you a Happy Thanksgiving!

Thank you,

Emily
